## SUMMARY

Experienced Web Developer with 3+ years of hands-on expertise in building responsive, user-centric web applications using modern technologies like React.js, Next.js, Node.js, and Tailwind CSS. Proficient in full-stack development, API integration, and performance optimization. Known for writing clean, maintainable code and collaborating effectively with cross-functional teams to deliver scalable, high-quality solutions.

## EDUCATION

CGPA 8.77, Bachelor of Engineering, Information Technology, GTU

CGPA 7.47, Diploma Engineering, Information Technology, GTU

## EXPERIENCE

### **Sky9 ITCraft – Senior Web Developer**

**02/2024 – present**

- Developed and maintained registration pages in Next.js with robust validation features to enhance user experience.
- Integrated and worked with APIs for seamless data communication and feature implementation.
- Optimized page performance, achieving performance scores ranging from 21 to 80 through various improvements.
- Led the migration of the project from Next.js 13 to Next.js 15, including routing conversion and updates.
- Worked on user edit pages, incorporating drag-and-drop functionality for improved interactivity.
- Implemented pagination and lazy loading techniques to optimize content loading times and user navigation.
- Designed and developed responsive UI features to ensure cross-device compatibility.
- Collaborated with a micro frontend architecture to modularize the application and improve scalability.
- Enhanced PDF and Excel download functionality, enabling dynamic UI improvements for both formats.

### **NexusLink Services – Software Development Engineer**

**02/2023 – 09/2024**

- Developed and maintained the registration page, implementing from validation to enhance user experience.
- Implemented drag-and-drop functionality for improved interactivity and usability.
- Integrated and worked with APIs to enable seamless communication between front-end and back-end system.
- Engineered image and PDF compression features, optimizing file size and download speed.
- Focused on page performance optimization, leading to faster-load times and improved overall user experience.

### **Radix Software Services – Engineering Intern**

**02/2022 – 09/2022**

- Gained practical experience in modern web technologies including HTML5, CSS3, JavaScript, TypeScript, Tailwind, and Bootstrap5.
- **Expense Tracker Project:** Built a MERN-Stack Expense Tracker web application during my internship using React.js, Node.js, Express.js, and MongoDB.

## TECHNICAL SKILLS

**Languages:** HTML5, CSS3, JavaScript, Python

**Libraries:** React, Redux, Tailwind, Bootstrap5

**Frameworks:** Next.js

**Testing:** jest
